

ROLLER SHUTTERS

ROLLER SHUTTERS

Apollo's Roller Shutters combine the smooth good looks of the Roller Shutter system with the privacy and sense of security we all need in today's world.

Roller Shutters not only deter intruders they also keep out noise, wind, rain and give great protection from the harsh summer sun. European designed and made in Australia, Apollo's Roller Shutters are tailor made to fit your windows.

Roller Shutters make being comfortable and secure in your home easier than ever whilst helping reduce your energy costs.

APOLLO HAS TWO DESIGNS IN THE RANGE

AR401 Roll Form Aluminium: 40mm slat profile is injected with polyurethane foam assisting in sound and heat insulation.

AE401 Extruded Aluminium: Designed to comply with the new BAL40 bushfire regulations.

OPERATING SYSTEM

Apollo offers a number of control options with Roller Shutters:

Manual Strap: Will lift Shutters up to a maximum of 1.8m² (only suitable for AR401, lifting up to 7.2 kg).

Manual Winder: Will operate Shutters up to a maximum of 4.5m² (only suitable for AR401, lifting up to 18kg).

Spring loaded with bottom bar locking system: Suitable for both AR401 and AE401 and will lift up to 62kg.

Oz Drive System (L10): Only suitable for AR401 will lift up to 18 kg. This is a low voltage battery operated drive unit and therefore not reliant on mains power. It is an affordable motorised control system that operates at the touch of a button and offers a competitive alternative to 240volt control options. It is available in standard (controller operated from holster on wall) or RF version with remote control. It will operate Shutters up to a maximum of 4.5m² and can be supplied with an optional E-Solar charging panel.

T20 Motor: Suitable for both AR401 and AE401 will lift up to 32kg. A tubular motor that is low voltage and works in the same way, with the same options as the Oz Drive System drive and can be supplied with optional E-Solar charging panel.

240 volt Motors: Apollo supply Somfy 240volt motors. We have a range of motors to suit that will lift over 8m². These motors are available as either standard with hard wire wall switch or RF versions with remote controls.

All Roller Shutter components come with a 2 year guarantee on manufacture and materials*. Some components or materials may carry additional manufacturers warranty*.
