

ARROW 

curtains + blinds + shutters

# THE STORY

**ARROW BEGINS WITH A DREAM TO GIVE  
AFFORDABLE LUXURY SOLUTIONS  
TO COMMERCIAL AND  
RETAIL CUSTOMERS**

Being a part of the fabrics and furnishings trade, we realised that customers were paying far too much for the fabric, followed by the costs of creating curtains and blinds. We decided to proceed with a Backward Integration Model whereby manufacturing custom-made curtains and blinds becomes a total solution. By pioneering this model and efficiently using resources from various countries, we provide customers with a wide range of fabrics, shutters and other window furnishings products.

## ARROW CURTAINS

Our collections are made from a wide range of soft fabric and a full blackout lining.

We can create custom made curtains in the following styles.

With high insulation capability, the fabric and lining is designed for Australian climatic conditions and long life.

- » **Eyelet curtains**
- » **Pinch pleat curtains**
- » **Sheer curtains**
- » **Other custom designed curtains**

# ARROW SHUTTERS

## **Fusion20**

Fusion 20 is made from hypoallergenic material. This is a mix of carbon and reinforced glass fibre. It's a very strong material with an aluminium core inside and arrives with a 20 year warranty.

## **Lindenwood – Natural hardwood**

Lindenwood Plantation Shutter is a natural hardwood product. It is made from single wood pieces with no joinery making it strong and stable. We have a range of colours to choose from including natural timber colours to whites and creams. Lindenwood can be used in internal areas only and are finished with high grade UV resistant lacquer or Valspar paint.

# ARROW BLINDS

## **Roller blinds**

This is the most convenient and widely used window furnishing which gives a very modern and minimalist look. Arrow roller blinds can be made in a range of fabrics and can be motorized as per your needs.

## **Sunscreen blinds**

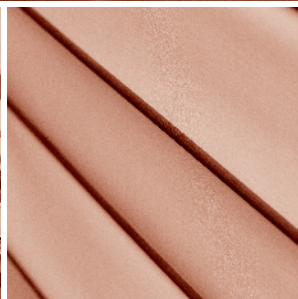

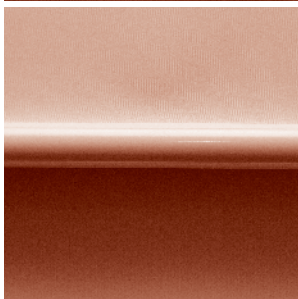

If you like the sun and the light to come inside and still need privacy? Arrow sunscreen mesh is the answer. It comes in a range of UV protected mesh fabrics that allow the light to filter through your home and still maintains privacy.

## **Roman blinds**

Arrow Roman blinds can be made to order in a range of fabrics including soft furnishing fabrics. They operate on a cord lock system or a heavy-duty chain system that is easily adjustable. They add immense value to living spaces and create a modern décor.

## **Wooden venetians**

Made in pure wood and combinations of wood and polyurethane, wooden venetians are by far one of the most natural and aesthetically pleasing window furnishings available. At Arrow, we carry a range of Swedish designed re-engineered wood and Canadian Cedar wood.

# ARROW BLINDS

## **Aluminum venetians**

Whether it's your office or home, aluminium venetians will be a practical, durable solution. They are easy to maintain and offer a minimal, sleek look.

## **Honeycomb blinds**

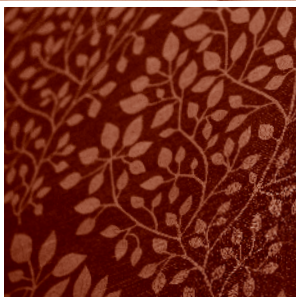

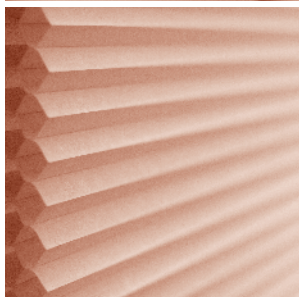

Honeycomb blinds provide a very high level of energy efficiency by trapping the air within the cellular structure, this results in a cooler room in summer and warmer room in winter. They come in variety of pleat sizes, cells and fabric to suite the décor.

## **Panel Glides**

The most modern design in the window furnishings industry, panel glide has the ability to increase space in your home. It is very practical especially for windows with sliding doors as the panels can slide in the same direction as the door. We also make panels in soft furnishing fabrics.

## **Vertical Blinds**

Give a clean look to your modern home. Durable and very easy to maintain, the vertical blind will provide problem free operation for many years.

## FOR BUILDERS

We design specific window furnishing packages based on home design and plans.

- » You may provide these packages as additional inclusions to the home buyers.
- » Your customers may come for colour and fabric selection to our showroom.
- » Customised furnishings as per your needs will be made and fitted.

## FOR INTERIOR DECORATORS

- » We provide you with a range of products and samples.
- » We take care of the entire manufacturing process for all the products required.
