OUR LAWN IS ALWAYS GREENER

With water more expensive and scarce than ever before, artificial lawn is becoming increasingly popular in Australia.

Soft underfoot, naturally tufted and gloriously green, our artificial lawn retains its colour and integrity long after the cheap imports have faded and failed. With up to a 10 year warranty and a life expectancy of over 20 years, Australian Outdoor Living delivers real peace of mind. So stretch out and relax...

THE BEST LAWN UNDER THE SUN IS AUSTRALIAN...

So it might surprise you to discover that just like our natural plants and vegetation, the artificial lawn that performs best around our homes and gardens is native to Australia.

Of course it makes perfect sense. The artificial lawns offered by Australian Outdoor Living are all Australian made. They're exclusive to us and designed to cope with our climate and punishing UV conditions. So naturally, they're endorsed by the Australian Made Campaign.

DROUGHT-PROOF, LEAD-FREE, KIND TO THE ENVIRONMENT

Of course our lawns never need watering, saving you money and time. Australian Outdoor Living's locally manufactured artificial lawns contain no lead.

Relax... We're
the leaders in
instant lawn.

Our lawns are 100% safe to live and play on, and because there's no mowing to be done, forget about noise, fumes, and the costs associated with tending and maintaining a living lawn.
