Planum

Aesthetics and functionality are brought together in the Planum range, a collection of tiles that combines a traditional roofing material with contemporary architectural style.

Planum creates a look of simplicity and elegance with duo tone, aged and monotone colour options developed to complement the sleek, refined shape of the tile. Due to its innovative design and size, the Planum tile is faster and easier to install, lowering installation time and costs. Furthermore the highly weatherproof design means it can be applied to roof pitches as low as twenty degrees.

Visum3

A new era in roofing products has arrived with the Visum3 tile from Bristile Roofing. Featuring a truly revolutionary interlocking design, the Visum3 has been designed to replicate smaller slate and clay tiles without the associated costs.

Introduced with a 20 year patent, the Visum3 can be installed for approximately one third of the price of a slate roof, providing an affordable alternative for those desiring a shingle roof. Industry leading technology enables each tile to be coloured individually with realistic pitting on the tiles surface for authenticity. Featuring a slim 9mm nose, the Visum3 achieves ultra flat laying for the ultimate shingle and slate appearance.

Curvado

The Curvado range captures a look of grandeur with a distinctively European style.

A roof tile conceived to satisfy the needs and preferences of building professionals, the Curvado is available in two sizes and has a variety of features which guarantee enduring popularity with home builders seeking a European style.

Manufactured from the highest quality clays, the Curvado incorporates a modern interlocking design which replicates the traditional pan and cover tile that has been a hallmark of European and Mediterranean architecture for centuries.

Medio Curva

A roof tile used through the ages, reintroduced in colours designed for the new world.

Traditionally, this two piece tile, also referred to as 'Mission Barrel', was the most frequently used roof tile in Europe and in Spanish colonial buildings in the new world. Today the Medio Curva tile is used in the construction of new homes, due to the beauty and wide variety of colours available, or on existing projects to restore historic roofs to their former beauty.

Associated Companies

Brickworks Group of Companies

AUSTRAL BRICKS

Austral Bricks is the largest and most efficient producer of pavers, bricks, building materials, façade systems and landscaping products in Australia.

With the commissioning of a new brick factory at Wollert, Victoria in 2007 we continue to set the pace for quality, efficiency and high levels of environmental performance.

The introduction of robotic brick handling equipment at plants around Australia enables us to greatly reduce manufacturing costs and enhance production flexibility.

AUSTRAL MASONRY

The acquisition of a number of concrete masonry manufacturers, most notably GB Masonry in Queensland, complemented established manufacturing Victorian facilities and led to the formation of Austral Masonry.

Through natural growth and acquisition Austral Masonry™ has become a significant player in the market for grey block building materials in Queensland and provides further diversification of earnings for the group.

AUSTRAL PRECAST

A new addition to the Brickworks family, our inventive precast solutions team work with clients to deliver architecturally striking and commercially cost effective precast solutions for the industrial, commercial and residential markets.

We're proud of our relentless focus on the use of advanced technology, quality control and commitment to service.

AUSWEST TIMBERS

Auswest Timbers™ manufactures a diverse range of timber products including heavy structural timbers, roof tile battens through to floor boards and decking. The company has manufacturing plants in Western Australia, Victoria and the A.C.T.
