Roof Tile Information

Concrete roof tiles are one of Australia's most popular roofing materials. Homebuyers appreciate their beauty and durability and the diverse range of colours and profiles. Bristile Roofing uses top quality oxides to ensure long lasting and vibrant colours that will blend beautifully into any setting.

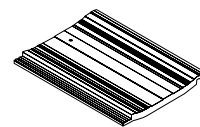

Whether your home is contemporary or traditional (or somewhere in between) there is sure to be a Bristile Roofing concrete tile colour and profile to suit.

Prestige Range

Lodge Profile: Smooth

The Lodge profile is a sleek, minimalist roofing product ideal for contemporary house designs. Available in a smooth finish, this profile adds a defining touch of class to any project.

Coverage M²

9.2 tiles

Dimensions (Nominal)

Length: 440mm

Width: 335mm

Average Mass

Mass per tile: 5.3kg (average)

Mass per M²: 57kg

Head Lap

Minimum head lap is 75mm. Head lap can be increased up to 110mm depending on the set out requirement of the roof.

Classic Range

Yeoman Profile: Shake and Shingle

Distinctively different, the Yeoman profile used in the Classic range features a shake and shingle finish, perfect for use on a country manor or coastal retreat.

Coverage M²

9.2 tiles

Dimensions (Nominal)

Length: 440mm

Width: 335mm

Average Mass

Mass per tile: 5.1kg (average)

Mass per M²: 53kg

Head Lap

Minimum head lap is 75mm. Head lap can be increased up to 110mm depending on the set out requirement of the roof.

Extensive Colour Range

We have developed a trendsetting range of new colours that will suit all tastes.

Vibrant Colours

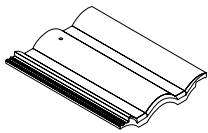

We use only the best quality oxides for deep, long lasting colours that will stand the test of time.

Profile Choice

Hacienda (rounded), Yeoman (flat), Villa (square), Lodge (flat). Distinctive styles to complement any project.

Sealer Coat

Our sealer coat reduces early age efflorescence (white salt deposits)

The Facts About Roof Tiles

Research conducted by universities and independent institutions, confirms that a roof constructed from terracotta or concrete roof tiles offers many benefits. The research shows that roof tiles reduce energy consumption, do not rust or corrode and offer the added benefits of fire resistance and sound insulation.

Extensive testing and research has been conducted and the results show that roof tiles offer:

Affordability

Concrete roof tiles are one of the most affordable roofing products on the Australian market.

Strength

Roof tiles must comply with strict standards in strength and concrete roof tiles actually increase in strength as they age.

Large Colour and Profile Range

Roof tiles are available in more colour and profile combinations than any other commonly used roofing product in Australia.

Sound Insulation

Roof tiles can reduce noise by 30 decibels which is more than twice the noise reduction achieved by other commonly used roofing materials.

Ideal for Coastal Areas

Roof tiles are ideal for use in coastal areas as they are impervious to rust and corrosion.

Reduced Cooling Requirements

Testing of similarly coloured roofing products shows roof tiles have a lower cooling requirement than other commonly used roofing materials.

Tile Colour. **Luna Eclipse**
Range. **Classic**

Fire Resistance

Roof tiles are ideal for bushfire prone areas as they are non combustible.

Low Embodied Energy

Testing shows that concrete roof tiles are the lowest embodied energy product of the three most commonly used roofing materials.

Solar Reflectance

Testing shows roof tiles will reflect more heat away from the home than other commonly used roofing materials.

Water Capture/Run Off

Water run off from tiled roofs is as safe to use as that from any other roofing material.

Longevity

When it comes to longevity, concrete and terracotta roof tiles both outperform the leading competing alternative. Concrete roof tiles offer a 50 year product warranty and terracotta roof tiles are supplied with our famous "Colour For Life" warranty.

La Escandella Collection

Spanish Terracotta Roof Tiles

Bristle Roofing is pleased to introduce the La Escandella Collection, a new range of European style clay roof tiles developed for projects of distinction.

Styled in Europe, influenced by Spain and now available in Australia, the La Escandella collection brings a new level of class to Australian roofing.

The collection comprises of six new ranges and five new profile shapes in an array of beautiful colours.

As with all clay tiles, the La Escandella Collection offers colours that will remain colour-fast for the life of the tile. In addition clay tiles offer outstanding strength and longevity demonstrated by their use on European marvels prominent since antiquity.
