The colours of the products featured within the imagery in this brochure are as close to Formica Flooring as photographic lighting and our printing processes allow. Different camera angles, although not designed to be misleading, can sometimes distort actual size and distances. Formica Flooring is no different than any other material in that darker colours will always show scratches and superficial wear and tear more readily than lighter colours. Formica Flooring should be protected from strong, direct sunlight as continuous exposure may cause discolouration or fading to the surface.
