

ZENTAI Natural Comfort Latex Mattresses

The ZENTAI **Natural Comfort** range is designed with strong emphasis on **All Natural** Materials.

Construction:

- 100% Natural Pincore Latex, Posture Zoned.
- Eco Certified by the Eco Umwelt Institute
- 'Multi Layered Latex' to achieve various comfort levels.
- 'Multi Zoned' to provide total postural support.
- Pure Downs-Wool Quilting. A generous 700g/m² wool layer gives added comfort and true insulative properties, which makes the mattress cool in summer and warm in winter.
- Natural 100% Belgian Cotton Jacquard, which offers both high durability and cool temperature control.

Latex offers extreme longevity and reliable continued support. All our latex mattresses are designed to suit any modern contemporary bedframe; they can be used on beds with solid slats, or posture slats, or an ensemble base.

Designed for the Natural Life Style

Classic 24 - 24cm approximate thickness.

Available in 2 Comfort Levels:

Medium & Firm
